Livestock Ranking System

The Livestock committee under the direction of Brad McKee presented a plan to the board that would replace the current JV rough stock program. This ranking system would help to match skill level of contestant and animal. While giving contestants opportunities to qualify for the UHSRA State Finals. The committee is still in the development stages of this program and will be reaching out to Clubs, contractors and membership for input and discussion.

Josh Baxter motions to table this topic until MWM to give the committee time to gather more input and data.

2nd by Angie Freeland

The livestock committee will plan to propose this program at Mid-Winter Meetings in Feb 2024. The membership is encouraged to reach out to the livestock committee with any questions or concerns.

Action Item: Jason requested that a ZOOM meeting be set up with the Livestock Committee and the clubs secretaries. Syndi will schedule that zoom meeting.
